

# **Buildathon Problem Statement: Long Context Generation**

## **Problem Statement**

Build a system to generate 100+ page professional documents from short prompts.

The system should maintain context and styling.

## **Objectives**

Generate long-form documents.

Integrate research sources.

Apply styling templates.

Support DOCX and PDF exports.

## **Technical Requirements**

Chunked generation engine.

Template system.

Research integration.

Progress tracking.

## **Success Criteria**

100+ pages generation.

Logical consistency.

Rich data and citations.

Reliable exports.

## **Expected Output**

Professionally formatted documents.

Ready-to-publish reports and manuals.
